

TAILORED  
TO FIT ANY  
OPENING

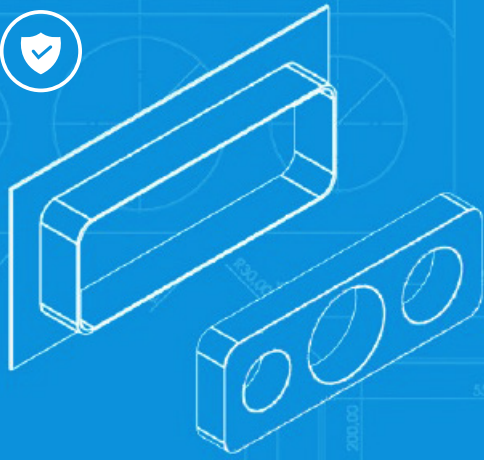

**Customized, but not complicated.**

No matter the wall type—precast or poured concrete, cement block, brick, tilt-up, or metal—or the size of the opening, **Polywater** can help you securely seal around your cable and conduit structure penetrations. Our **Polywater® | Hauff-Technik® custom seal and flange systems** are well engineered to protect critical assets and are gastight and watertight up to 36 psi. Plus, the installation is made for maximum efficiency, minimizing time and hassle for crews.

**EASY  
PROCESS**

# Seal around any number of cables, conduits, or through any size opening, in any type of structure.

Just bring us the number of cables or conduits, their diameter, the opening dimension, and if you need room for future pathways. Then, we'll do the rest. Don't be limited, choose the sealing system with the power to realize your design possibilities.

## SOLID DESIGN

Two 0.197 (5 mm) stainless steel pressure plates on each seal and 316 Stainless steel bolts and nuts.

## DURABLE

Materials for flange and seal resist corrosive environments and rodent infestation.

## RELIABLE

Gastight and watertight up to 36 psi (2.5 bar) performance; with 5 year warranty.

Realize the possibilities of custom seal and flange systems from Polywater® | Hauff-Technik®

Two industry leaders have joined forces to provide custom infrastructure solutions for pharmaceuticals, data centers, renewable energy, power generation, and food and beverage environments to prevent water, rain, dust, oil, gas, and pests from causing outages.
